

2023 Annual Report

“Helping those as they battle the beast of brain cancer”

Gray Warriors is a 501(c)(3) non-profit organization which provides grants to those in need and to provide support for individuals suffering from brain cancer/tumors.

Gray Warriors is run entirely by volunteers and has no paid staff. Income comes solely from donations.

Thank you so much for your generous gift of gas cards/visa during such a difficult time of life. It provided us much relief. Since Myles finished his radiation at the end of Sept., he has now been home and doing so well. His appetite is back and he has relearned to walk (even running)! We hope and pray his cancer never returns. He was truly the bravest warrior through all of his. And though it was through very unfortunate circumstances that we ever connected, we will be forever grateful. THANK YOU!! Words don't seem like enough. You have touched our lives in such a positive way.

-- Ashley, Greg and Myles

About

GrayWarriors.org
