

# 2022 Annual Report

“Helping those as they battle the beast of brain cancer”

*Gray Warriors is a 501(c)(3) non-profit organization which provides grants to those in need and to provide support for individuals suffering from brain cancer/tumors.*

Gray Warriors is run entirely by volunteers and has no paid staff. Income comes solely from donations.

*“We are extremely grateful for the assistance we received from Gray Warriors. Being self-employed and having brain cancer was very stressful when wondering how I would keep my business running to support my family. My wife also took a leave from her job to care for me while we traveled for chemotherapy treatment from the University of Minnesota in Minneapolis and radiation treatment at the Mayo Clinic in Rochester. Gray Warriors provided assistance with gas cards and hotel. This helped to greatly decrease the financial stress that is part of dealing with brain cancer. We will forever be thankful for the wonderful work of Gray Warriors.” Donny*

Comment from a cancer patient navigator in response to our work in 2022:

**“Wow! Incredible to see. Thank you for all you do. You have impacted a few of my patients in such amazing ways. I appreciate your work and your process for grant applications is very user-friendly.” Laura**

## About

GrayWarriors.org

---

Gray Warriors was founded in 2017 in memory of Chris J. Toneff and Colleen K. Toneff (mother and son) who both passed away from brain cancer.
