

Brain Tumors:

Diagnostic Imaging and Patient's and Caregiver's
Response to the Diagnosis

Tuesday, May 14, 2019

Sunnyside Country Club

1600 Olympic Dr

Waterloo, IA 50701

Hosted by:

*A non-profit 501(c)(3) organization
founded in loving memory of Chris J.
and Colleen K. Toneff and all those who
have made an impression on our lives.*

General Information

Patients and caregivers are often lost in the diagnosis of brain cancer due to the sophisticated diagnostic imaging and treatment programs. The course will educate the medical professional about types of diagnostic imaging and enable a better understanding of the plight of the patient and caregiver when diagnosed with brain cancer.

We invite you to attend an evening program to hear from two Cedar Valley physicians who will share with you these exciting advances in patient care!

Intended Audience

Physicians, RNs, LPNs, Radiologic Technologists, social workers, patients, caregivers, and interested public.

Continuing Education

This program has been approved for **2.25 Category A credits from the American Society of Radiologic Technologists.**

Two Contact Hours will be awarded by Hawkeye Community College Iowa Board of Nursing Provider #5. You must be present for the entire program to receive credit.
